

During the last few years, we have achieved a remarkable growth trajectory, on which we expect to continue in the near future.

We are one of the few domestic EPC companies that have delivered consistently superior performance in the last few years. Revenue growth in FY 2017-18 has been around 15% maintaining the Company in high growth trajectory. Similarly, we have been able to improve our profitability performance. This year, our EBITDA and profit after tax have grown by 19% and 20%, respectively. We expect this strong growth to continue, given the visibility of our robust order book.

Our order book visibility with respect to sales has improved from 1.79x in FY 2016-17 to 2.15x in FY 2017-18.

Such outperformance has its roots in the steps that we have undertaken strategically diversifying our business and geographic mix; relentless focus on

execution and completion of projects and bidding for projects with lower execution and receivables risk.
